PROFESSIONAL SUMMARY

I am a Skilled developer experienced in HTML, CSS, JS, React.js, MongoDB, Express.js, Node.js, MySQL, Tailwind CSS, Bootstrap, and Next.js I have also completed a Google UX Designing course from Coursera and Possess Knowledge of other frameworks and language of PHP, Spring, Hibernate, Android, Adobe XD, etc.

EXPERIENCE

Front End Web Developer
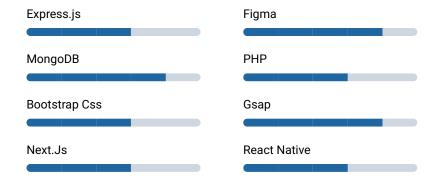

Risezonic / India, New Delhi

2023 - Now

As a Front End Web Developer at Risezonic, I created visually appealing and user-friendly websites. I collaborated with the design and development teams to ensure seamless integration of front-end and back-end technologies. Leveraging my HTML, CSS, JavaScript, and ReactJs, etc knowledge, I successfully delivered projects that met client's expectations.

- Developed responsive websites
- Implemented animations and interactive features
- Optimized website performance
- Collaborated with cross-functional teams
- Conducted quality assurance testing
- Brought mock-ups to life with HTML, CSS, and JavaScript.
- Deployment of Websites Management of cPanel.
- Created successful websites that met requirements for objectives such as load speed and design.
- Ensured clean, valid HTML and CSS markup conforming to industry standards.
- Participated in design reviews ensuring consistency between design intent and implementation.

SKILLS

HTML

CSS

JavaScript

React

Node.js

MySQL

REST API

Responsive Design

UX Design

Tailwind Css

Express.js	Figma
MongoDB	PHP
Bootstrap Css	Gsap
Next.Js	React Native

SELF PROJECTS

Netflix Clone

https://github.com/Ashish-Kaintura/Netflix-clone-frontend

(In this project, I used React.js for the front end or CSS for Styling, and Node.js, Express.js, and MongoDB for the back end. The project was deployed on GitHub and Render.)

Pizza ordering Site (Modified Site of Dominos)

https://quiet-faloodeh-378fe9.netlify.app/

(It's a pizza-ordering website similar to Dominos, but with some modifications. This project was made with React JS and CSS.)

Kid Quiz Game

https://ubiquitous-cuchufli-711b3b.netlify.app

"It's an Anime Quiz game for kids that has been created using JavaScript, HTML, and CSS."

Facebook UI Clone (2021)

https://effortless-selkie-1cce44.netlify.app/

(This is a clone of the Facebook frontend user interface that was created using HTML, CSS, and JavaScript.)
